

MINFORD MARCS

December 2020

Vol. 15

Art in MARCS

The students in Minford MARCS have been creating several art projects. The fourth and fifth graders decorated flower vases and created sculptures using clay. The K-3 students will create their masterpieces when we return to school.

Virtual MARCS

We have been offering MARCS through our Google Classrooms and Google Meets while the school has been on total virtual learning. MARCS teachers have been posting activities, games, and contests for the students to enjoy. We hope to be back in school soon so that we can work with our MARCS students. We've missed them and can't wait for them to return. We will continue to post activities on our Google Classrooms even when the students return to school. Don't forget to check these out for fun activities that you and your child can do together.

Parent/Student Activities

Several MARCS students created parachutes as a parent/student activity. Several students sent pictures of their creations. If you made a parachute, send us a picture at nriffe@minfordfalcons.net. We would love to see them. Other parent/student activities are listed in our MARCS Activities Google Classroom.

We Love MARCS!
